

Adarsh Dubey

India

Objective

Aspiring Computer Science Engineer passionate about Machine Learning, AI, Web Development, and Cybersecurity. Seeking opportunities to apply my skills in software development, automation, and security while continuously learning and growing in the tech industry.

Technical Skills

- Programming Languages: Python, JavaScript, C++
- Machine Learning & AI: TensorFlow, Scikit-learn, OpenCV
- Web Development: HTML, CSS, JavaScript, React, Node.js
- Databases: MySQL, Firebase
- Cybersecurity & Ethical Hacking: Penetration Testing, Web Security
- Tools & Platforms: Git/GitHub, Linux, Canva

Projects

1. Automated Attendance & Fee Management System

- Developed a system for coaching institutes to automate attendance tracking and fee management.
- Integrated real-time data processing and user-friendly dashboards.

2. Real-time OMR Sheet Scanner

- Built a web app that scans and evaluates OMR sheets instantly using image processing.
- Utilized AI-driven analysis for accurate answer matching.

3. Weather Application

- Designed a modern, feature-rich weather app with real-time data visualization.
- Implemented an elegant UI with interactive elements.

4. Personal Portfolio Website

- Created a sleek and professional portfolio showcasing my projects and skills.
- Integrated animations, a dark mode toggle, and a contact form with email functionality.

Education

Pursuing B.Tech in Computer Science Engineering (Starting Soon)

Certifications & Achievements

- AI & ML Training: Completed hands-on projects in deep learning and computer vision.
- Ethical Hacking & Web Security: Explored penetration testing techniques.
- Git & Version Control: Proficient in collaborative coding and repository management.

Soft Skills

- Problem-solving & analytical thinking
- Strong communication & teamwork
- Adaptability & eagerness to learn
